## SKILLS SUMMARY

|                                    |                                                      |
|------------------------------------|------------------------------------------------------|
| <b>Languages:</b>                  | C, C++, HTML, CSS ,Python                            |
| <b>Frameworks &amp; Libraries:</b> | Arduino, NumPy, Pandas, Proteus, Autocad             |
| <b>Databases:</b>                  | MySQL ,MongoDB ,PostGre                              |
| <b>Cloud / DevOps:</b>             | Git, GitHub                                          |
| <b>Developer Tools:</b>            | VS code , MongoDB , MS SQL server                    |
| <b>Core Subjects:</b>              | Data Structures, OOP, DBMS                           |
| <b>Soft Skills:</b>                | Communication, Problem Solving, Teamwork, Leadership |

## PROJECTS

### Smart Disaster Management System – Arduino-based safety system April 2026

- Developed an Arduino-based disaster management system designed to detect hazardous conditions and provide immediate alerts.
- Integrated sensors with Arduino to monitor environmental conditions and trigger appropriate warnings during potential disasters.
- Implemented an automated alert mechanism to improve response time and provide real-time status information.

*Tech Stack: Arduino, C/C++, Sensors, Embedded Systems*

### Exam Security System – Automated Exam Monitoring May 2026

- Designed and built an Arduino-based examination security system to monitor student activity and improve exam-hall integrity.
- Integrated motion/activity sensors, a camera module, and a mobile-phone detection system to identify unauthorized activity.
- Implemented LED and buzzer alerts to provide immediate indication when suspicious activity or phone usage was detected.

*Tech Stack: Arduino, C/C++, ESP32-CAM, PIR/IR Sensors, Mobile Phone Detector, LEDs, Buzzer, Embedded Systems*

### Government Scheme Recommendation System Feb 2026

- Built an AI-powered platform that analyzes user information and matches them with relevant and eligible government schemes.
- Developed a responsive and user-friendly interface with interactive components, smooth animations, and intuitive navigation for a better user experience.
- Integrated backend APIs to efficiently process scheme-related data and generate personalized recommendations based on user requirements

*Tech Stack: Python, API json, HTML, CSS*

### Ai Interviewer

- Developed an AI-powered mock interview platform that conducts role-based interviews and dynamically evaluates candidate responses.
- Implemented AI-based feedback to assess communication skills, confidence, answer quality, and overall interview performance.
- Designed an interactive real-time interview interface with smooth conversation flow, response analysis and personalized performance insights.

*Tech Stack: Python, FastAPI, React, Java script , HTML,CSS, AI/LLM APIs, REST APIs*

## CERTIFICATIONS / CERTIFICATES

CS205: Building with Artificial Intelligence | <https://sllnk.com/ztd74qf> March 2026

Introduction to Building & Deploying Applications with Google AI Studio | <https://sllnk.com/j4zdw78>. August 2026

Introduction to Cyber Security | <https://sllnk.com/zqt4si1> April 2026

Computer Programming | <https://sllnk.com/qmrcafw> August 2026

Applied AI (Statistics to NLP) | <https://sllnk.com/xsfhw5v> August 2026

## ACHIEVEMENTS

Runner-up — Youth Festival (SPECTRA) April 2026

## EXTRACURRICULAR ACTIVITIES

• Animal Shelter Volunteer — Completed 30+ hours of community service supporting animal care and shelter activities June 2026

• Guitarist — Participated in college cultural and musical activities (SPECTRA) April 2026

## EDUCATION

**Lovely Professional University** Jalandhar, Punjab

B.Tech -CSE (A.I.-M.L.) — CGPA: 7.0 Aug 2025– Aug 2029

**M.R.A. D.A.V. Senior Secondary Public School** Solan, Himachal Pradesh

Senior Secondary (Class XII) — Percentage: 75 March 2025

Senior Secondary (Class X) — Percentage: 78 March 2023
